

BIOGRAPHY

27 June 2012

Title and name

Dr. Christiane Vleminckx

Nationality

Belgian

Panel

Contaminants in the Food Chain

Education

Ph.D in Sciences Zoology (Molecular Biology), 1988, Université Libre de Bruxelles, Belgium

Licence in Sciences Zoology (Molecular Biology), 1980, Université Libre de Bruxelles, Belgium

Scientific and risk assessment experience

1. Toxicology
 2. Genotoxicology and Biomonitoring
 3. Risk assessment of Plant Protection Products
 4. Toxicological evaluations of chemical substances, pesticides, biocides and food contaminants
 5. Classification and labelling of dangerous substances
-

Main scientific publications

Publications in the areas of Plant Protection Products, food contaminants, genotoxicity and biomonitoring.

Gosciny S, Vandevijvere S, Maleki M, Van Overmeire I, Windal I, Hanot V, Blaude MN, Vleminckx C, and Van Loco J, 2011. Dietary intake of hexabromocyclododecane diastereoisomers (a-, b-, and c-HBCD) in the Belgian adult population. *Chemosphere* 84, 279-288.

Claeys W, Vleminckx C, Dubois A, Huyghebaert A, Höfte M, Daenens P and Schiffers B, 2009. Formaldehyde in cultivated mushrooms: a negligible risk for the consumer, *Food Additives and Contaminants, Part A*, 26, 1265-1272.

Vleminckx C and Hakanson H, 2008. First draft on cyromazine – Pesticide residues in food 2006, Joint FAO/WHO Meeting on Pesticides Residues, Part II – Toxicological evaluations, WHO 2008.

Vleminckx C and Davies L, 2008. First draft on thiabendazole (addendum) – Pesticide residues in food 2006, Joint FAO/WHO Meeting on Pesticides Residues, Part II – Toxicological evaluations, WHO 2008.

Vleminckx C and Dellarco V, 2007. First draft on benalaxyl – Pesticide residues in food 2005, Joint FAO/WHO Meeting on Pesticides Residues, Part II – Toxicological evaluations, WHO 2007.

Vleminckx C, 2003. First draft on metalaxyl and metalaxyl-M – Pesticide residues in food 2002, Joint FAO/WHO Meeting on Pesticides Residues, Part II – Toxicological evaluations, vol. 97, WHO 2003, 165-221.

Vleminckx C, 2002. First draft on prochloraz – Pesticide residues in food 2001, Joint FAO/WHO Meeting on Pesticides Residues, Part II – Toxicological evaluations, vol. 94, WHO 2002, 141-182.

Vleminckx C, Klemans W, Schriewer L, Joris I, Lijzen N, Maes A, Ottogali M, Pays A, Planard C, Rigaux G, Ros Y, Vande Rivièrè M, Vandenvelde J, Verschaeve L, De Plaen P and Lakhanisky T, 1997. Performance of Cytogenetic biomarkers on children populations exposed to environmental pollutants. *Toxicology and Industrial Health*, 13, 219-230.

Klemans W, Vleminckx C, , Schriewer L, Joris I, Lijzen N, Maes A, Ottogali M, Pays A, Planard C, Rigaux G, Ros Y, Vande Rivièrè M, Vandenvelde J, Verschaeve L, Deplaen P and Lakhanisky Th, 1995. Cytogenetic biomonitoring of a children population allegedly exposed to environmental pollutants. Phase 2: Results of a three-year longitudinal study. *Mutation Research*, 342, 147-156.

Lakhanisky T, Bazzoni D, Jadot P, Joris I, Laurent C, Ottogali M, Pays A, Planard C, Ros Y and Vleminckx C, 1993. Cytogenetic monitoring of a village population potentially exposed to a low level of environmental pollutants. Phase 1: SCE analysis. *Mutation Research*, 319, 317-323.

Vleminckx C, Arany J, Hendrickx B and Moens W, 1987. Genotoxic effects of glycidyl-trimethyl-ammonium chloride. *Mutation Research*, 189, 387-394.
