

ANNUAL DECLARATION OF INTERESTS (ADoI)

(Please note that high quality of scientific expertise is by nature based on prior experience and that therefore having an interest does not necessarily mean having a conflict of interest)

Name: GUNDERT-REMY, Ursula

Title: Prof. Dr.

Profession: Medical Doctor (retired since June 2008)

Current EFSA involvements: Member-ANS Panel 2011-2014 (ANS), Member-BPA Toxicology 2012 WG (CEF), Member-Botanicals in food (ANS), Member-WG 'A' Food additives and nutrient sources 2011-2014 (ANS), Member-WG on Aspartame (ANS), Member-WG on Toxicology (ANS)

Nature of Activities	Period	Organisation	Subject matter
I. Economic interest			NO INTEREST
II. Member of a management body or equivalent structure			NO INTEREST
III. Member of a scientific advisory body	05/2012 - now	-Name: Federal Institute for Risk Assessment (BfR)	Member of the Committee on Food Additives, Flavourings, and Processing Aids. The role of this committee is to advise the Institute. Independent external experts have been appointed to this BfR Committee who input their expertise into the Institute's work on a voluntary basis. This expert network gives BfR access to expertise on the highest scientific level for its risk assessments of food, feed, chemicals, consumer products and other articles of daily use as well as on risk research and risk perception.
	03/2012 - now	-Name: DG Health and Consumer Protection	Expert in a group on BPA in medical devices

	11/1986 - now	-Name: Committee on Drugs of the German Medical Association	Giving advice to the German Medical Association in all fields of drug treatment for patients, inclusive side effects of drugs
	01/2012 - 08/2012	-Name: EFSA, European Food Safety Authority, Italy, Parma	Member - WG 'Guidance on Food additives' (ANS)
	01/2010 - 07/2012	-Name: EFSA, European Food Safety Authority, Italy, Parma	Member - Thresholds of Toxicological Concern (TTC) (SC)
	11/2010 - 07/2011	-Name: EFSA, European Food Safety Authority, Italy, Parma	Member - ANS Panel 2008-2011 (ANS)
IV. Employment	06/2008 - now	-Name: None	Retirement.
	11/1996 - 05/2008	-Name: Federal Institute for Risk Assessment (BfR)	<p>Toxicological risk assessment (pesticides, biocides, chemicals)</p> <p>I have been the Head of the Department of Safety of Substances and Products. This included besides the responsibility for the staff (up to 100 persons) responsibility for the human health assessments on industrial chemicals in the European regulatory assessment scheme for new and existing chemicals; since 2005 responsibility for the human health assessments on pesticides and biocides in the relevant European regulatory assessment schemes, responsibilities for research in several fields among them also work on TTC. A.o. I wrote an article published in Toxicology Letter as the senior author which deals with TTC application in the field of reprotoxicity.</p> <p>At my time in the office, there was no regulatory position concerning the application of the TTC concept and I was not involved in drafting an opinion on the issue.</p> <p>On behalf and upon instruction of my employer I have served from 2005 until end of 2008 as a non-paid Scientific Advisor to the Research Foundation Council of Scientific Advisors of ILSI where I have been evaluating intramural research proposals submitted by ILSI branches once a year together with other panel members by ranking them in an order. The projects covered a broad range of research fields. Some examples were: Promotion of Classroom-Based Physical Activity, Project on physical activity promotion to fight obesity, Educational Efforts to Use Tools for Risk Assessment, A risk management tool to establish thresholds for food allergens, Iron Deficiency Elimination Action, Osteoporosis prevention by enhanced Calcium intake, Advice was given to prioritize the following fields in research : Predictive Modelling by probabilistic modelling techniques applied to the level of health risk, and on the uncertainty/Variability analysis; Relationships between genetic make up and nutrition, health risk and health promoting behaviours; Children's health, Endocrine disruptors ,Training course in the use of FAO/WHO Risk Analysis Manual in developing countries, Levels of no concern/virtually safe levels for genotoxic carcinogens"</p>
V. Ad hoc or occasional consultancy			NO INTEREST
VI. Research funding			NO INTEREST
VII. Intellectual property rights			NO INTEREST
VIII. Other membership or affiliation	03/1972 - now	-Name: German Toxicological Society, formerly German Society of experimental and clinical Pharmacology and Toxicology	<p>Scientific Society in the field of Toxicology</p> <p>I am currently the President of this Society</p>
IX. Other relevant interest	06/2011 - 06/2011	-Name: ILSI, Private Organisation	TTC workshop, 8-10 June 2011: Participation on behalf of EFSA. Participated as chair of the break out group 1 Non-cancer endpoints: Databases and chemical domain
