

ANNUAL DECLARATION OF INTERESTS (ADoI)

(Please note that high quality of scientific expertise is by nature based on prior experience and that therefore having an interest does not necessarily mean having a conflict of interest)

Name: ROSE, Martin

Title: Dr.

Profession: principle scientist environmental contaminants

Current EFSA involvements: Member-ANS Panel 2011-2014 (ANS), Member-Reference Points for Action (CONTAM)

Nature of Activities	Period	Organisation	Subject matter
I. Economic interest			NO INTEREST
II. Member of a management body or equivalent structure			NO INTEREST
III. Member of a scientific advisory body	05/2011 - 07/2012	-Name: EFSA, European Food Safety Authority, Italy, Parma	Member of CONTAM panel.

IV. Employment	05/1988 - now	-Name: The Food and Environment Research Agency	<p>The Food and Environment Research Agency is part of the UK Government's Department for Environment, Food and Rural Affairs. Its over arching purpose is to support and develop a sustainable food chain, a healthy natural environment, and to protect the global community from biological and chemical risks. Its role within that is to provide robust evidence, rigorous analysis and professional advice to Government, international organisations (including the World Health Organisation) and the private sector.</p> <p>The Food and Environment Research Agency brings together expertise in</p> <ul style="list-style-type: none"> * policy issues - particularly relating to seed, plant and bee health * inspection services necessary to ensure protection for seeds, crops and horticulture * multi disciplinary science to rapidly diagnose threats, evaluate risk and inform policy in food and environmental areas * responding to and recovering from unforeseen or emergency situations. <p>Fera has no official responsibility for food chemical risk management.</p> <p>My own role is to lead a team of scientific staff investigating environmental contaminants in food and their impact on human health. These include dioxins and PCBs (both dioxin-like and non-dioxin-like PCBs), PAHs, trace elements, flame retardants such as PBDEs, TBBPA, HBCDD, organo-phosphorus compounds such as PFOS and the like, brominated and mixed halogenated dioxins, PCNs and other emerging contaminants in foods.</p> <p>My employment has not involved any work related to the risk assessment of mercury or methyl mercury apart from a total diet study on exposure to trace elements conducted for the UK Food Standards Agency in 2007.</p>
V. Ad hoc or occasional consultancy			NO INTEREST
VI. Research funding	04/2007 - 03/2008	-Name: Food Standards Agency, UNITED KINGDOM, London	<p>Total Diet Study - trace elements in food. Analysis of samples; study report and publication: 'Martin Rose, Malcolm Baxter, Nicola Brereton and Christina Baskaran. (2010) Dietary exposure to metals and other elements in the 2006 UK Total Diet Study and some trends over the last 30 years. Food Additives and Contaminants 27 (10) 1380–1404'.</p>
VII. Intellectual property rights			NO INTEREST
VIII. Other membership or affiliation	09/2009 - now	-Name: International Association of Environmental Analytical Chemistry	Society for those with an interest in environmental analytical chemistry.
	09/2006 - now	-Name: The British Toxicological Society	Professional society for toxicologists
	01/1990 - now	-Name: Royal Society of Chemistry	<p>Professional society for Chemists</p> <p>I am Fellow of the RSC (FRSC), Chartered Chemist (CCChem), European Chemist (EurChem) and Chartered Scientist (CSci) as a result of this membership. I am a committee member of the Toxicology Group.</p>
IX. Other relevant interest			NO INTEREST
X. Interests of close family members			NO INTEREST

I hereby declare that I have read both the Guidance Document on Declarations of Interests and the Procedure for identifying and handling potential conflict of interests and that the above Declaration of Interests is complete.
